

**There might have been some misunderstanding with my message yesterday. If you are refused a day off because it is on a Monday or a Friday the local strongly encourages you to grieve. Local 25 does not support this selfish, short sighted initiative by Bell Canada. Please notify a steward in your building immediately. Stewards' contact numbers are available on the bulletin boards.**

**On another very important note, Bell has a notion that they are going to put contractors in our C.O.'S to pull jumpers. Let's not kid ourselves, Bell is trying to give all our jobs to a lower paid labour force. What stops them from going from our C.O's to our test boards? Enough already, it's time to fight for our jobs ! Local 25 must and will draw a line in the sand. No contractors in our C.O.'s No contractors in our test board's We are not falling for this "it's just a test shit" once they are in we are out. If you don't fight now you better get used to welcoming people at Walmart. A day of solidarity might be in order to remind Bell their ship is not in order without us!**

**Take this opportunity to tell your boss you plan on working At Bell Canada until it is time to reap your well earned pension!**

**In solidarity,  
Your President,  
Douse**
