## Reasons to vote NO on the 3<sup>rd</sup> offer

If accepted we will lose our C.O.L.A.

As we head into a recession nothing is more important to have than a cost of living adjustment. We received a payment in 2007. For pensioners to be in 2011 this is extremely important as these next 3 years will reflect what you live on for the rest of your lives. Food and gas prices are soaring and 2% a year will not protect your purchasing power.

You have lost your share plan = \$1500 or more

You have lost your PRB's = \$75000 or more

You have lost premiums = up to \$9000.

You have lost C.O.L.A = PRICELESS!

Many of you will say who cares about weekend premiums? You will when you are on standby for 7 days straight! Or you now are affected by the new weekend scheduling! You are all concerned about what you might lose

If we are locked out by Bell- 4months =- \$8000 or more. We might go on strike if you say NO! And you might lose 8 grand maybe...

**HOWEVER, YOU WILL LOSE ALL THE MONIES NOTED ABOVE IF YOU CAPITULATE AND VOTE YES.**

If you vote yes now, we will never get these benefits back.

Stand up and show you have a pair!

Do not be bullied by Bell!

Sincerely,

Mike Douse, President Local 25
