

The old emailing list using [bell.ca](http://bell.ca) was not passing through company filters. Anyone interested in getting updates needs to manually sign up with their personal account or risk not getting email updates.

<http://unifor25.com/sign-up.html>

This new email list will be how we send out local and national updates about bargaining and other union related issues.

Please confer with colleagues to see if they have gotten this notice, if they did not then please refer them to our website to sign up. The local can use your help in spreading the word to help keep people in the loop about union events.

Do not access any personal email, social media or other accounts on Bell owned devices.

Thank you

Local 25
