Please fill out the survey today, on a personal phone or computer - not your company computer - and not during work hours.

Telecommunications Member Survey: Working from Home

Introduction

POUR UNE ENQUÊTE EN FRANÇAIS - [CLIQUEZ ICI](#)

In response to the COVID-19 crisis, many employers have imposed work from home programs. Unifor is in the process of gathering information from our members regarding our experiences working from home, including the impact of that work on our job performance, personal lives, mental and physical health, and more. We plan to use this information to help develop stronger bargaining demands, improve our working conditions, and demand better rules and legislation from governments.
